FUNDS AWARDED

On August 6, 2009, the California Energy Commission, the California Workforce Investment Board, and the Employment Development Department, in coordination with the California Labor and Workforce Development Agency, announce the availability of approximately \$23 million for the California Clean Energy Workforce Training Program (CEWTP) through a Solicitation for Proposals (SFP). In a Press Release dated October 2, 2009, Governor Arnold Schwarzenegger announced grants awarded to 34 organizations through the SFP process. The Press Release, list of grant awardees, and a brief description of their projects are available on the EDD [SFP Web site](#). Please note that these funding decisions are final.

This collaborative effort combines funding from the American Recovery and Reinvestment Act (Recovery Act) for the State Energy Program (SEP), the Alternative and Renewable Fuel and Vehicle Technology Program established by AB 118 (Núñez, Chapter 750, Statutes of 2007), Workforce Investment Act (WIA) Governor's Discretionary funds, and private and local funds to create what's believed to be the nation's largest green job workforce development program. The CEWTP will create a well-trained workforce capable of filling the jobs necessary to promote renewable energy development, climate change strategies, vehicle fuel technology and green buildings.
